Coordinator Research Platform  
Transplantation

**Rainer Oberbauer**  
Department of Medicine III,  
Division of Nephrology and Dialysis,  
Coordinator Research Platform  
Transplantation

## Dear Colleagues!

Successful transplantation of animal organs would revolutionise medicine in general. Recent studies on pig hearts and kidneys have rekindled enthusiasm for this vision. Therefore this year's Transplant Forum Symposium is dedicated entirely to the topic of 'Xenotransplantation'. Four distinguished international leaders in the field will present their latest research and will discuss the future of medicine and how Xenotransplantation can contribute to it.

We cordially invite you to participate in this event at the MedUni Vienna and look forward to seeing you on 4<sup>th</sup> April!

Thomas Wekerle

Rainer Oberbauer

Thursday, 4<sup>th</sup> April 2024

2.00 – 3.15 pm

### Welcome

Michaela Fritz, Vice Rector for Research and Innovation, Medical University of Vienna

### Kidney

Robert Montgomery, NYU Langone Transplant Institute, New York  
Alexandre Loupy, Necker Hospital, Paris

3.15 – 3.45 pm

### Break

3.45 – 5.00 pm

### Heart

Bartley Griffith, University of Maryland, School of Medicine, Baltimore
